BRAZILIAN INSPECTION VISIT

Our biggest news of the year and a truly historic event as the ABCCMM inspection team arrived in the U.S. in May.

The technician inspected horses born in the U.S. and for those that qualified, applied the M brand. This was the first branding ever done outside of Brazil. Many of us were nervous about the branding, but the inspector was proficient and quick. Many of the horses just flinched as if a fly had bitten them.

The newly born U.S. foals were also documented to ensure they are eligible for inspection at three.

Jose Eduardo Teves and Getulio Tadeau Vieira, the Brazilian team, shared a lot of their knowledge about the breed and about specific horses with the breeders here.

The USMMA sponsored the trip to continue the tradition and quality standards of the Marchador horse in the U.S. The Marchador is inspected for gait, conformation and temperament. The ABCCMM and several Brazilian breeders were instrumental in making the trip a reality. Our thanks to them all.
